Gaylord Hospital
Care beyond the ordinary.

Inpatient Managed Healthcare Plans

Gaylord is considered an "in-network" provider for the following managed health care plans.
This list may change at any time due to contract renegotiations and is provided as a guide.

You are welcome to call the patient's health insurance plan to inquire as to their available benefit. Remember to ask about the benefit for long-term acute care days for use at Gaylord Hospital. The Admissions staff at Gaylord is required to contact the insurance company, inquire as to the benefits, out-of-pocket expenses and obtain pre-certification if required.

Please note: Patients enrolled in plans with "out-of-network" benefits may also access our services.

This information is provided as a reference for acute care staff members.
A Gaylord representative will obtain authorization from patient's carrier when needed.
If you are currently working with an insurance case manager,
please share that information with the Gaylord representative you speak with.
Thank you.
