

# Gaylord's Neuropsychology Team Ready. Willing. Able.

Our team is available to assist with your patient's cognitive assessment and treatment planning needs. Our current lead time is approximately **three weeks**.

We have experienced and compassionate neuropsychologists ready to help patients as young as 2 years old through the challenges of advanced age. We look forward to working with you.

## With safety as our HIGHEST priority:

- All patients and staff are required to wear masks
- Everyone entering will be screened for temperature and COVID symptoms
- We will delay appointments for patients with signs or symptoms
- No visitors are allowed (unless providing direct care)
- Staff is cleaning equipment and surfaces following infection prevention guidelines
- If possible, teletherapy may be offered

Referral sources have expressed appreciation for our assessments, calling them:

- Concise • Accessible
- Focused • Well tolerated by patients

Visit our newly redesigned website for more information at [gaylord.org](http://gaylord.org).

## NEXT STEPS:

Your office can fax the referral form to

**(203) 294-8705**

or

Speak with our practice coordinator at

**(203) 741-3413**

*Please include the last 6 months of visit notes and pertinent diagnostic imaging with referral.*
