SPINAL CORD INJURY

Specialist Course

SEPTEMBER 8 - DECEMBER 15, 2021

WEDNESDAYS, 4:30 p.m. - 6:30 p.m.

via Zoom

COURSE DESCRIPTION

This course offers a comprehensive review of neuroanatomy and the rehabilitative process related to spinal cord injury. Gaylord Hospital clinical specialists and guest speakers will present on their area of expertise through lectures in anatomy, associated complications including skin, wounds, lymphedema, spasticity, HO, pain, respiratory, DVT, PE, bowel and bladder, functional mobility and outcomes, advanced ADLs, augmentative and alternative communication, substance abuse and return to community and resources.

COURSE OBJECTIVES

Upon completion of this course participants will be able to:

1. Identify epidemiology and course of recovery for spinal cord injury.
2. Identify major associated complications and their impact on treatment.
3. Identify treatment approaches, progression and outcomes.
4. Describe the roles of each member in a team approach towards maximizing patient mobility, access to support services and return to community.

SUGGESTED AUDIENCE

PTs, OTs, SLPs, RNs, LPNs, Social Workers, Case Managers and other Health Professionals working in any medical setting (ie. Acute care, rehabilitation, sub-acute nursing facility, long term care, home health, private practice) with patients with spinal cord injury as a way to expand their knowledge on topics related to the rehabilitation process.
