Who can take advantage of Gaylord’s Amputation Healthcare Services?
Anyone who has experienced an amputation. A current member of your healthcare team can make a referral or you can contact Gaylord yourself at (203) 284-2888.

When are services available?
Flexible scheduling for services on the Wallingford campus is available Monday through Friday.

Will my medical insurance cover services?
Gaylord accepts commercial insurances, as well as, Medicare and Medicaid. Gaylord staff will work with you to verify benefit coverage and will discuss treatment costs that may not be covered by insurance.

What else does Gaylord Specialty Healthcare offer?
Gaylord Hospital is a long-term acute care hospital specializing in the treatment of medical and complex rehabilitation patients who require inpatient care following an acute care hospital stay.

Gaylord Outpatient Services provide physiatry (physical medicine and rehabilitation physicians), aquatic therapy, physical, occupational and speech therapies, as well as, audiology, psychology and wheelchair assessment services. Gaylord also sponsors many support groups.

Gaylord Center for Concussion Care evaluates teens and adults for comprehensive care by a team of brain injury experts.

Gaylord Physical Therapy Orthopedics and Sports Medicine, at 8 Devine Street in North Haven and 1154 Highland Avenue in Cheshire, specializes in musculoskeletal conditions requiring therapy, sports injuries, return-to-learn and return-to-play progression following concussion.

The Gaylord Advantage

- Multidisciplinary team allows collaboration and expertise from a variety of specialists, including clinicians with advanced board certifications.
- Weekly prosthetic and orthotic clinic offers appointments with a team including a Gaylord physiatrist, or doctor of physical medicine, a physical therapist and a vendor.
- Employs expert staff who receive advanced education related to specialty services.
- Partners with cutting edge vendors who collaborate on the latest technology options.
- Monthly support group offers education and the opportunity to meet and discuss relevant topics.
- Our 75-by-25 foot therapeutic pool was designed for people with disabilities featuring wide ledges, stairs with rails and an in-water bench for sitting while exercising.

AMPUTATION HEALTHCARE SERVICES

When would I need Amputation Healthcare Services?

Whether your amputation occurred months ago, or decades ago, having a team of experts evaluate your gait and prosthetic needs is a worthwhile appointment. Uncompensated gait patterns can lead to changes in function and even cause other orthopedic or neuromuscular problems. Our team can help you progress to your next level of activity. Whether you are getting up on a new prosthetic for the first time, you are ready to begin a new sport or resume an old favorite, we are here and ready to help.

Evaluation may include:

- Assessment of strength in core and limbs
- Pain assessment
- Gait and functional analysis
- Medication review
- Prosthetic assessment
- Balance and coordination assessment

Anyone with an upper or lower extremity amputation could benefit from our services. Additional components of care may include:

- Physical Therapy
- Occupational Therapy
- Non-narcotic Pain Management
- Consultation with a Physical Medicine Doctor
- Gaylord Sports Association Referral
- Medical Nutrition Consultation
- Aquatic Therapy

What is the goal of our services?

Gaylord has been helping to restore the health and function of our community members for more than 100 years. Whether you are looking to increase your activity level or decrease reliance on family members, equipment or medication, we can assist you in achieving your goals. Our team will become your resource for creative problem solving, knowledge and advocacy.

The Wallingford campus houses a pool equipped with a lift for patients who require assistance entering the water. This special lift also accommodates bariatric aquatic participants.

The Sports Association of Gaylord Hospital provides adaptive sports like tennis, golf, yoga and cycling to people with physical disabilities. To view their upcoming events search Sports Association, Gaylord Hospital on Facebook.
