Wallingford, CT 06492
The Many Benefits of Monthly Giving

• It is automatic
  You don’t have to think to write a check. Your monthly giving is recurring and you have full control over any changes in your gift at any time.

• It is protected
  Using your credit card is a secure way to give and will automatically be billed monthly.

• Allows for budgeting and spreading out your giving
  Sometimes when you are inspired to give you don’t have the funds. Spreading the payment over 12 months makes it easier to fit it into your budget. For example, a gift of $20/month is $240 in a year.

• Generates points, airline miles or cash back via your credit card
  Putting recurring monthly expenses on a credit card is an excellent way to generate the perks of cash back or airline miles, depending on what your credit card offers.

• Fewer asks and more updates
  As a monthly “Make it Possible” donor there are fewer donation requests, which reduces our mailing costs and allows us more time to update you about the impact of your gift.

• Makes a significant impact
  Your monthly gift enables you to give more than you thought you could. For instance, a $50 month gift over three years adds up to $1,800 in support of patient care.

• Provides ongoing support
  Monthly gifts create ongoing, consistent support that enhances the services our patients receive on a regular basis and helps our clinicians provide new equipment and therapies that improve our patients’ recovery.

• Allows you to be part of group of like-minded donors
  By making a monthly gift; you are joining forces with other like-minded donors that help provide ongoing care and resources to sustain patients who are often facing a devastating illness or injury. Like bricks supporting a building, each donor is critical to ensuring a robust and lasting foundation of care.

“I’ve always wanted to give to Gaylord ever since my sister was treated there. Giving back is important to me but my budget is pretty tight, and I didn’t think I could give enough to make it matter. When I realized that a small monthly gift could help someone, I decided to start giving monthly. Sometimes the hardest part is taking the first step! I like not having to think about it, and it’s billed right to my credit card. I can budget for small monthly amounts, where a large gift just isn’t possible. When I see my gift to Gaylord on my [credit card] statement, I feel great knowing I’m helping someone get the care they need.” - Sarah W., Branford
