## Meet Our Pediatric Neuropsychologists

**Richard H. Grayson PhD**  
Pediatric Neuropsychologist

- Doctorate of Psychology from the City University of New York
- Postdoctoral fellowship at Mount Sinai Medical Center, Long Island Jewish Medical Center and Comprehensive Neuropsychological Services
- Works with patients 2-22 years old
- Specializes in acquired brain injury, stroke, epilepsy and cognitive effects of medical diagnoses. Dr. Grayson recently completed a five-year-long multisite research appointment studying the effects of ventilated newborns.

**Tricia McDonough Ryan PhD**  
Pediatric Neuropsychologist

- Doctorate of Psychology from the University of Cincinnati, OH
- Postdoctoral fellowship at Cincinnati Children's Hospital Medical Center and University of Cincinnati College of Medicine
- Works with patients 2-22 years old
- Specializes in neuropsychological assessment, acquired brain injury, stroke, brain tumors, CNS diseases, psychogenic conditions, developmental/intellectual disabilities, genetic/chromosomal disorders and medical treatments that impact cognitive, psychological and behavioral functioning.

## Neuropsychological evaluations can assess:

- Attention and concentration
- General intellect
- Higher level executive skills (e.g., sequencing, reasoning, problem solving)
- Language
- Learning and memory
- Motor and sensory skills
- Mood and personality
- Visual-spatial skills (e.g., perception)

Referral sources have expressed appreciation  
for our assessments, calling them:

- Concise
- Accessible
- Focused
- Well tolerated by patients

**Gaylord Outpatient Services**  
**Department of Neuropsychology**

50 Gaylord Farm Road, Wallingford, CT 06492

**Referrals/Questions:**

P: (203) 741-3413

F: (203) 294-8705
